Hi , I am

Abdulkerim

3rd Year Software Engineering Student from AAiT.
Aiming to become a Full Stack Developer and Product Manager.

Programming Skill

Skill	Proficiency (%)
Python	85%
Java	75%
Data Structures	80%

Education

i Graduated from
Addis Ketema Preparatory School (AKPS)

This is where I gained foundational knowledge and developed my passion for learning.

Hobbies

Playing Soccer

Spending time with my friends

Psychology

My Volunteer

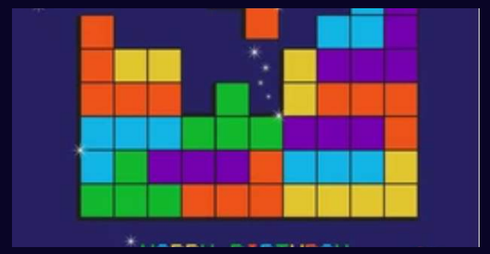
Rise Children of Ethiopia (RCE)
A wonderful organization dedicated to improving the lives of children.

Children Heart Fund Of Ethiopia (CHFE).
Supporting children's health and education initiatives.

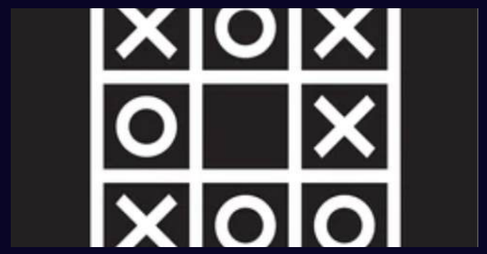
Abdulkerim

My Projects

Minesweeper game using Python



Tetris game using Java



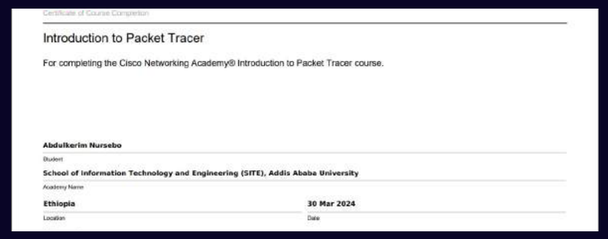
Tic-Tac-Toe (XO) game in data structure and algorithm

Enrolled Courses

The 5 Million Ethiopian Coders

Completed Courses

Course 1



Certificate of Course Completion

Introduction to Packet Tracer

For completing the Cisco Networking Academy® Introduction to Packet Tracer course.

Abdulkerim Nursebo
Student

School of Information Technology and Engineering (SITE), Addis Ababa University
Academy Name

Ethiopia — Location
30 Mar 2024 — Date

CISCO Netacad.

Course 2

VERIFIED
CERTIFICATE of ACHIEVEMENT

e-SHE

This is to certify that
Abdulkerim Neja
successfully completed and received a passing grade in
e-SHE: DS201's Strategies for Successful Online Learning
a course study offered by Ministry of Education

Student Success Suit (SSS).

My Blog

The Importance of Coding Practice

Practicing coding regularly is crucial for improving your programming skills. Set aside dedicated time each week to tackle coding challenges, contribute to open source, or work on personal projects. Consistency is key; the more you code, the better you get. Remember, every line of code you write is a step towards becoming a proficient developer.
